Dear Sr. Presidente Patricio Aylwin Azocar,

I trust you are well and prospering.

ETI is interested in securing representation for our energy efficiency technology. The **ELECTROFLOW** protects electrical distributions and equipment while reducing electrical utility cost by as much as 34%. Guaranteed! Our Transfer of Technology program has proven effective in every market we have activated.

ETI desires to share this technology via a Transfer of Technology agreement. I have included material with this package that will provide a description of the various programs available.

Because of your position within the community, perhaps you are aware of certain individuals or organizations that are receptive to new and viable opportunities.

I simply ask for you to share this information with any group, company or individual that may be open to such opportunities. I invite you to review the material provided.

I thank you in advance for any assistance you may choose to provide.

Should you have any questions do not hesitate to contact me.

Sincerely,

William J. Mitchell  
International Affairs
