Your Excellency,

As members of Amnesty International we pay a particular attention to the human rights's transgression perpetrated everywhere around the world. This year many countries celebrate the 500th anniversary of the coming of the Europeans to the American continent, so we try to make known the human rights's transgression towards the population of America.

Actually we feel concerned by Nelson Wladimir Curimil Lincoqueo, a young communist student who has been arbitrarily pulled down by the military during the coup d'état in 1973.

We want to regulate you or investigators done about the way he has been killed. We would like to know all the truth about that and to see Nelson Wladimir Curimil Lincoqueo's murders sentenced. Amnesty International think this kind of investigation must be done for all human rights's transgression made in Chile to avoid their repetition.

Yours Sincerely
