Your Excellency,

We are writing with regard to Juan Domingo SALVO ZuNIGA who has been found guilty of murder.

Although we appreciate that this was an horrific crime deserving of the severest punishment, we agree with Amnesty International in its opposition to the death penalty, in that it ultimately degrades all those involved in carrying out the sentence.

We would respectfully request that your Excellency exercises your power of clemency and commutes the death sentence in this case.

We would also humbly request that consideration be given to the total abolition of the death penalty in Chile in line with the worldwide trend.

We are,

Yours respectfully,

Doreen E Hazlewood
