ARCHIVO

Dear Sir/Madam,

I am very worried and concerned about the future of the indigenous peoples of America.

They have been disgraced, forced off their lands, killed in ruthless campaigns and herded into reservations.

This must not continue. These people have a born right as our fellow species, to be left in peace to live as they do. Indigenous people are very magnificent and precious. They should be revered and respected.

Not exploited by greedy people  
for short term profits.

Yours sincerely  
G. J. Walton.
