Your Excellency,

I write to you concerning the execution without trial in the case of Nelson Wladimir Curnir Lincoqueo. I am very concerned and worried about the withholding of information to Mr Lincoqueo's family about his whereabouts. The way this life was forgotten about will not be forgotten in my mind. This pardon to his executioners was not lawful to humanity. Mr. Lincoqueo had no trial, no chance to defend himself, but you still have a chance, a chance for justice.

All I ask is for the information ~~to~~ to be let out to their families and for people not to be forgotten

Respectfully yours,

Cesareo D'Angelo

12/31/92

Dear Sr. Azocar-

I am writing to you out of concern for the blockage of investigations of human rights violations because of the amnesty law passed in 1978, such as the case of Nelson Wladimiro Curbini Lincogues, who was murdered sometime after October 18, 1973 by someone unknown. In this case, and in many others, this amnesty law is being used to prevent justice and makes it impossible to clarify past human rights violations and keep them from reoccurring in the future. I am sure you are equally concerned regarding the case of Mr. Lincogues and others and ask that you take speedy action to see that this problem is resolved. Finally, I thank you for taking the time to read this letter.

Sincerely yours,

Erik R. Jones

Excelentísimo Sr Patricio Aylwin Azocar:

Soy un miembro de Amnestia Internacional. Me preocupa que existe el temor en su país, de que las fuerzas de seguridad estan matando los jurisperitos, los personas inocentes.

Una persona en especifico nos preocupa. Su nombre es Nelson Wladimiro Curinir Lincoqueo. En 1973, miembros de la unas personas de la fuerza aerea entraron en su casa y le separaron de su familia, y la familia nunca le vio otra vez. El cuerpo fue descubierto en 1990. Nos complace que el CNVR esta investigado la muerte. Espero que la verdad salga y las personas responsables por la muerte sean llevadas ante la justicia.

Amnestia Internacional cree que la justicia necesita prevalecer para todas las personas en Chile. Es necesario que la ley amnestia de 1978 este abrogado. La ley aboga por la persecucion las personas responsables de abusos humanos.

Sinceramente,

*Melissa Bernardin*

Dear Mr. President

As a concerned college student interested in the rights of Native Americans, I am shocked and dismayed at the happenings involving the assassination of Nelson Currie. This seems to be a violent disregard of the basic human rights due to every person. Indigenous peoples have a right to a voice in government and their own land. Please follow up on this assassination and find the assassinations and take what ever actions necessary.

Chile

Dear Mr. President,

I am always concerned about the violations of any person's human rights, for any reasons.

I am especially concerned now about unresolved human rights violations, including the case of Nelson Wladimiro Curinir Lincoqueo, who was missing and was finally reported dead, and it was found that he had been shot in the back of the head.

I am gravely disturbed by the extrajudicial execution of Nelson Wladimiro Curinir Lincoqueo in 1973. I strongly urge that all human rights violations such as this be clarified by the government, and those responsible be brought to justice.

Sincerely,  
Tiffany Refior

Dear Mr. President

The human rights of all individuals is of tantamount concern to me; the violation of human rights can not, ~~under~~ under any circumstances, be tolerated. Of particular concern to me is the violation of human rights of indigenous populations. These occurrences persistently go unreported, ignored, and without redress. I am aware that the indigenous populations of Chile suffer from the violation of their human rights; an exemplary case is the abduction and murder of Nelson Wladimir Curinir Lincoqueo. I implore you to make the safety of indigenous peoples one of your primary concerns.

Sincerely,  
Lisa Lipsky
