We are a small Christian group who meet to pray for and to support those in prison for their beliefs.

We are very concerned about BELINDA ZUBICUETA CARMONA who has been in prison for six years without any confirmation of her sentence. She was isolated and badly tortured after her arrest. We appeal to you, Your Excellency, for her immediate release.

We also ask you to ensure that all cases of human rights violations be investigated by civilian courts rather than military ones.

We ask you to honour your promise, made in March 1992, of freedom within a very short time for all political prisoners of whom we understand there are still 44.

Yours respectfully,
