Dear Sr. President,

I request that Belinda Zubicuetta Carmona is immediately released in view of the six years that she has been imprisoned and tortured, without confirmation of sentence.

Please make every possible effort to ensure that all cases of human rights violations are investigated by civilian courts rather than military ones. The case of Alfonso Chanfreau shows the need for this.

I urge you to allow proper investigations and prosecutions, especially in the case of the disappeared, without recourse to the Amnesty Law of 1978.

Yours sincerely,

H.P. Barkham.
