CHILE.

Dear Sir,

Street Arts is a community theatre company in Australia which is concerned with social issues.

Street Arts wishes to protest against the continued incarceration of political prisoners, particularly a government which espouses democratic principles.

Street Arts is aware of the hunger strike undertaken by a number of political prisoners. We believe that their cause is just and that they and all political prisoners should be immediately released.

We urge your government to act now to redress this injustice.

Yours sincerely,

Kara Miller,
Street Arts Co-Ordinator
